Important Health Warning About Playing Video Games

Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions:

- Sit farther from the television screen.
- Use a smaller television screen.
- Play in a well-lit room.
- Do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing

RACE DISCIPLINES

IN COLIN MCRAE DIRT, THERE ARE SIX RACING DISCIPLINES TO GET TO GRIPS WITH;

RALLY

Home to such champions as Colin McRae and Travis Pastrana, rallying is the pinnacle of the off-road racing scene. Race point-to-point on challenging stages set in six countries; Germany, Spain, Italy, Japan, Australia and the United Kingdom.

RALLY RAID

Race world class Rally Raid vehicles head-to-head on long off road circuits in the USA. Based in Otay Valley, California, this is the home of off-road racing in America.

CROSSOVER

Crossover is derived from the Super Special Stages found in Rally events. Race head-to-head around a 2-lane circuit. In the knockout events, compete through quarter and semi-final heats to get to the final.

CORR

Championship Off-Road Racing is America's greatest short track off road series, with Super Buggies, Class 1 buggies and Pro-4 trucks all hitting the dirt. Race Crandon, Bark River and Chula Vista from the official series.

RALLYCROSS

Rallycross is the European based sport of racing on circuits combining both on and off-road elements. The competition is fierce and action-packed, with the tracks comprising the pick of the best from the UK and France.

HILL CLIMB

The most extreme of the disciplines sees you racing 850bhp monsters uphill to the peak of the mountain. Practice on the Windy Point Hill Climb before attempting the big one on America's mountain, the Pikes Peak International Hill Climb.

DIFFICULTY LEVELS

THE GAME CONTAINS FIVE LEVELS OF DIFFICULTY FOR YOU TO ATTEMPT. START OUT ON THE LOWER LEVELS AND WHEN YOU FEEL CONFIDENT, MOVE UP TO A HARDER DIFFICULTY TO MAKE SURE YOU'RE COMPETING WITH EQUAL OPPONENTS.

ROOKIE

Rookie Difficulty is for novice drivers with minimal Rally driving experience. Opponents will have a similar lack of experience so will be easy to beat with little or no practice.

MECHANICAL DAMAGE: Very Low
TERMINAL DAMAGE: Off
OPPOSITION SKILL: Very Easy

CLUBMAN

Clubman Difficulty is for drivers with limited Rally driving experience. Opponents at this level will be a little tougher, but still not unbeatable.

MECHANICAL DAMAGE: Low
TERMINAL DAMAGE: On
OPPOSITION SKILL: Easy

AMATEUR

Amateur Difficulty is for drivers with moderate Rally driving experience. Opponents at this level will provide a solid challenge for drivers not up to speed.

MECHANICAL DAMAGE: Medium
TERMINAL DAMAGE: On
OPPOSITION SKILL: Medium

PRO-AM

Pro-Am Difficulty is for more experienced Rally drivers. Opponents will provide a tough challenge requiring skill to be beaten.

MECHANICAL DAMAGE: High
TERMINAL DAMAGE: On
OPPOSITION SKILL: Hard

PRO

Professional Difficulty is for highly experienced Rally drivers. Opponents at this level will be World class and will be very hard to beat.

MECHANICAL DAMAGE: Very High
TERMINAL DAMAGE: On
OPPOSITION SKILL: Very Hard

Note:

The harder the Difficulty level you choose in Career mode, the more money you will win.

CAREER

THE CAREER MODE IS THE PLACE TO TEST YOUR SKILLS IN THE ENTIRE RANGE OF RACING THAT COLIN MCRAE™ DIRT™ HAS ON OFFER. START OUT IN A RANGE OF STANDARD VEHICLES TO GET INTO THE GROOVE, AND DEVELOP INTO A WORLD CLASS OFF-ROAD CHAMPION, READY TO ENTER THE FINAL 'CHAMPION OF CHAMPIONS' EVENT.

POINTS

Finish in the top six in any event and you'll win points. Your points tally will determine which events become available to you as you make your way through each tier of the career pyramid.

1st = 10pts	3rd = 6pts	5th = 4pts
2nd = 8pts	4th = 5pts	6th = 2pts

MONEY

BUYING CARS

Use your money to buy new cars to enable you to enter more events.

BUYING LIVERIES

Once you own some cars, buy new liveries to make your car stand out.

RALLY CHAMPIONSHIP

THE RALLY CHAMPIONSHIP IS THE CLASSIC COLIN MCRAE RALLY MODE. ENTER THE EUROPEAN, INTERNATIONAL OR GLOBAL CHAMPIONSHIPS AND RACE FWD, 4WD, RWD AND CLASSICS ACROSS ALL SIX RALLY COUNTRIES IN AN ATTEMPT TO BECOME THE ULTIMATE CHAMPION.

EUROPEAN CHAMPIONSHIP

The European Championship comprises of events in the UK, Italy and Germany.

INTERNATIONAL CHAMPIONSHIP

The International Championship comprises of events in Japan, Australia and Spain.

GLOBAL CHAMPIONSHIP

The Global Championship comprises of events from both the European and International rallies combined.

RALLY WORLD

THE RALLY WORLD IS WHERE YOU PLAY WITH ALL OF THE CARS AND TRACKS YOU HAVE UNLOCKED IN THE CAREER MODE.

SINGLE RACE

In this mode you can race on a single track against AI opponents.

SINGLE EVENT

In this mode you can race through a single event from the Career mode.

TIME TRIAL

In this mode you can practice on any track to set some fastest laps.

REPLAYS

After each race, you will be able to watch a full replay to see how well you have driven. You have full control over the Replay; fast forward, rewind and even slow motion! You can also switch from the TV style replay cameras to any of the in game cameras.

Note: A hard drive must be connected to your Xbox 360 for replays to be enabled.

CO-DRIVER CALLS

IN THE RALLY AND RALLY RAID MODES, YOUR CO-DRIVER WILL GUIDE YOU THROUGH EACH TRACK, HELPING YOU RACE AT TOP SPEED BY GIVING YOU ADVANCED NOTICE OF THE UPCOMING FEATURES OF THE COURSE, BE IT CORNERS, JUNCTIONS OR JUMPS.

THE CORNER CALLS ARE NUMERICAL, WITH THE LOWER THE NUMBER THE SHARPER THE TURN. IN MANY CASES THE NUMBER REFERS TO THE IDEAL GEAR THE CAR SHOULD BE IN TO TACKLE THE TURN. FOR '6' TURNS, THIS CAN MEAN IT CAN BE TAKEN AT FULL SPEED RATHER THAN HAVING TO BE IN 6TH GEAR.

THE ON-SCREEN CORNER ICONS ARE ALSO COLOUR CODED TO GIVE A MORE IMMEDIATE VISUAL CLUE OF WHAT IS AHEAD.

Note: By default, the stage map will be shown during a race. Alternatively co-driver arrows can be selected from the OSD section of the Pause menu.

DRIVING TECHNIQUES

RACING LINE

The racing line is the fastest route through a track. Driving on the racing line sets you up better for entering and exiting corners and allows you to carry as much speed as possible through corners, therefore maintaining a higher average speed.

UNDERSTEER

Understeer is when your car doesn't turn enough through a bend. This is common on front wheel drive cars, but is also caused by carrying more speed into a corner than your tyres or the road can cope with.

OVERSTEER

Oversteer is the opposite of understeer and means your car turns too much through a bend, resulting in the rear end sliding out of line. This is common in rear wheel drive cars but can also be caused by your rear tyres not having enough traction on the road for the speed you are carrying.

POWER OVERSTEER

Power Oversteer is the technique of forcing the rear end of your car to slide out by accelerating into a bend on a loose surface. This causes weight shift and the momentum of this helps bring the car around the turn in a smaller arc, saving time and maintaining speed. Use Power Oversteer to navigate sharp turns.

POWER SLIDE

The power slide is similar to Power Oversteer, but is the technique of forcing the whole car into a slide through a bend, rather than just the rear end. This is the most efficient way of taking an open bend whilst maintaining speed. Use Power Slides on wider roads and 5-6 turns.

SCANDINAVIAN FLICK [PENDULUM]

The most famous technique used by rally drivers is the Scandinavian Flick or Pendulum. This technique involves steering away from a turn before turning quickly back into it. This unbalances the car, causing the rear end to pendulum around whilst also maintaining speed as you navigate the turn. Use the Scandinavian Flick on narrow roads and 3-4 turns.

HANDBRAKE TURN

For hairpin bends, it is essential to master the handbrake turn. This is the technique of using the handbrake to lock the rear wheels, forcing the rear end to swing out, turning the car in a very small arc. Use handbrake turns on narrow roads and 1-2 turns.

DAMAGE

THERE ARE NINE PARTS OF YOUR CAR THAT CAN BE DAMAGED. EACH OF THESE AFFECTS HOW YOUR CAR WILL DRIVE. ONCE IN THE SERVICE AREA AFTER A RACE, YOU WILL HAVE TIME TO REPAIR DAMAGED PARTS ON YOUR CAR.

During a race, you can see how damaged each of these areas of the car is by pressing Start to enter the Pause menu.

If you severely damage a part of your car, the corresponding icon will slide on screen on the right hand side during a race. The icons will change colour the more damage the car receives, from yellow through to red. Highlighting areas of your car that are close to being destroyed.

Below are the nine damageable areas and their icons.

REFER TO THE HELP TEXT AVAILABLE IN GAME FOR MORE INFORMATION ON EACH OF THESE SETTINGS.

TIP:

When you are happy with your Rally Car Setup, try it out on one of the Shakedown stages to see how good it really is before heading into full competition.
